### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 02 September 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 2, claim 2 cannot depend from itself.

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Tribble U.S. Pat. No. 3,823,720 in view of Cocanower U.S. Pat. No. 5,334,167.

Tribble discloses a combined suction and direction irrigation apparatus for use in a surgical procedure including an irrigation tubular member (34) having a lumen connected to a source of irrigation fluid (irrigation means not shown) and a suction tubular member (20) having a lumen connected to a suction source (19), said irrigation tubular member being removably supported to said suction tubular member (figs. 2 and 4), and means (26) attached to said irrigation tubular member and said suction tubular member.

Art Unit: 3763

Tribble does not disclose a discharge port on the side surface at the distal end of said irrigation tubular member. Cocanower discloses a discharge port (26) on the side surface of the irrigation tubular member. Therefore it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the device of Tribble with the side surface port of Cocanower for improved irrigation.

*Allowable Subject Matter*

Claims 3-10 are allowable over the prior art of record
